22 AUG 1963

MEMORANDUM FOR: Comptroller

SUBJECT: Proposal for the Establishment of Scientific  
Pay Schedule Positions for Fiscal Year 196425X9A2  
25X1A1A

1. The attached proposal submitted by the Director of Personnel requests your concurrence in the establishment of ☐ scientific pay positions in the Agency in FY 1964 at an average annual increase of about ☐ a year (this fiscal year this should amount to approximately ☐).

25X1A1A

2. I am informed that these proposed positions have been reviewed and approved by the Scientific and Technical Personnel Advisory Committee. In general, the proposal appears moderate and in most instances justified. Personally, I would have questions concerning the basic scientific nature of the position proposed for the Office of Communications, and possibly the scientific positions proposed in the FI Staff and the Office of Computer Services; however, since these apparently have been thoroughly reviewed by individuals in the best position to evaluate the duties involved, I recommend that you concur in the proposal and forward it to the DDCI.
